STATEMENT UNDER 37 C.F.R. 1.78(a)(6)(iii)

Sir:

The entire delay between the date that the priority claim was due, under 37 CFR 1.78(a)(5)(iii), to the filing date of U.S. provisional application Serial No. 60/242,614 and today's date on which the claim is filed was unintentional. Although the provisional application was referenced in the inventor's declaration filed with the application, the cross-reference to the provisional application was unintentionally omitted from the specification.

The omission to cross-reference the provisional application in the specification was detected by the undersigned on April 9, 2002. At that point, the undersigned initiated contact with a now retired former member of the undersigned's firm, who oversaw the preparation and filing of this application. In addition, the undersigned initiated some research into the rules to determine whether the priority claim could be belatedly made. On April 21, 2002, the retired former member of the undersigned's firm confirmed that the application should be amended to include the priority claim, and that it was inadvertently omitted.
